Deepam 2.0

The Deepam 2.0 scheme, launched in 2024, provides three free LPG cylinders annually to 83 lakh eligible families. This initiative aims to reduce reliance on firewood, promote clean cooking fuel, and improve health outcomes, especially for women in rural areas. The scheme's estimated annual cost is Rs. 659.01 crore. The Deepam Scheme (Deepam 2.0) is also part of the "Super Six" schemes and provides three free LPG gas cylinders per year to eligible households.

The Deepam 2.0 scheme, launched in 2024 by Chief Minister N. Chandrababu Naidu on October 31, 2024, provides three free LPG cylinders annually to eligible families in Andhra Pradesh. This initiative aims to reduce reliance on firewood, promote clean cooking fuel, and improve health outcomes, especially for women in rural areas. The scheme is also part of the Super Six schemes.

Key Details:

1. Launch Date: The scheme was officially launched by Chief Minister N. Chandrababu Naidu on October 31, 2024, on the occasion of Deepavali.
2. Beneficiaries: Women who are permanent residents of Andhra Pradesh, are at least 18 years old, possess a ration card, and do not have multiple LPG connections within the same household are eligible. The scheme is aimed at poor and BPL Below Poverty Line households.
3. Benefits: Eligible beneficiaries will receive three free LPG cylinders per year, with one cylinder provided every four months.

4. Application Process: Eligible women can apply through the official MeeSeva website by filling out the Deepam Gas Connection option, filling out the application form, and uploading the required documents.
5. Booking and Distribution: Advance gas bookings began on October 24, 2024, and the distribution of free cooking gas cylinders started on October 31, 2024.
6. Reimbursement: Beneficiaries will initially purchase the gas cylinder at its original price, and the amount will be refunded to their Aadhaar-linked bank account within 48 hours of delivery through Direct Benefit Transfer DBT. This DBT mode is being piloted in NTR and Guntur districts.
7. Documents Required: Necessary documents include an Aadhaar card, ration card, address proof, income certificate, bank passbook copy, current gas connection bill, and gas connection book.
8. Objectives: The scheme aims to reduce the financial burden on families, promote cleaner cooking methods by moving away from traditional fuels like firewood, and improve the health and safety of households.
9. Funding: The government has sanctioned ₹895 crore for the scheme and estimates an annual cost of ₹2,684 crore. The implementation is planned in three phases: April to July, August to November, and December to March.
